

# Thermals<sup>TM</sup>

# INTRODUCING THERMALS SPAS

**Thermals Spas use some of the latest technology to create the next spa generation and offer an abundance of design features to choose from.**

The range is well-balanced offering stylish moulds and a mixture of single and dual pump spas with an array of sizes including three swim spas. Built using a corrosion-free steel frame, Aristech acrylic, and Gecko equipment the Thermals Spas by Superior Wellness deliver fantastic hydrotherapy and great value for money – going beyond your expectations.

## Colour Options

**People often underestimate the importance of colour. Not only can it influence the way that people think and feel, but it can sway their reactions and change their actions as well.**

That's why choosing the right colour for your hot tub shell is essential prior to installation. You want your spa to be as calming, relaxing, and aesthetically pleasing as possible.

## R-10 Full Insulation Technology

R-10 full insulation technology has been very popular and mature in the hot tub industry. Its purpose is to reduce the running cost of hot tubs and to achieve energy-saving and environmental protection. Thermals Spas always focus on innovation and the breakthrough in the R-10 full insulation technology will decrease the running costs of hot tubs.

## Certifications

Certified routines and reliable quality with quality one of our core brand values at Superior Wellness. Every single swim spa and hot tub has to go through our stringent quality assurance procedures. Our management, production, and inspection routines as well as our products and their components have been certified and evaluated to exceed numerous international standards.

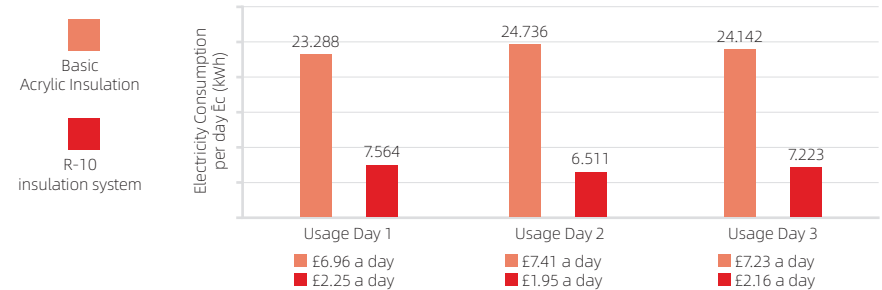

## Quality Components

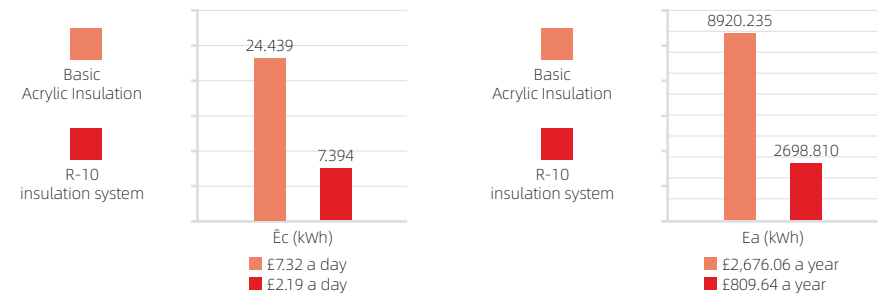

## R-10 Insulation Energy Savings TUV Report

Test Results based on the Neptune, Space Range.

Average Electricity consumption per cycle  $\bar{E}_c$ :

- 2 great measured values are picked up as valid values, while the least measured value is abandoned.
- $\bar{E}_c$  is equal to the average the above 2 valid values

- Annual electric consumption  $E_a$ :  $*E_a = \bar{E}_c \times 365$
- Remark:  $*Annual = 365$  days

## Intro Range

### Enter the Thermals Spas world

**Our new Intro range provides a more affordable option for those looking to invest in their first hot tub.**

With three styles to choose from, each model is built with many of the same high-quality components as the Space range, such as Gecko Controls, but offers great value for money and the perfect introduction to hot tub ownership.

They also all come with Bluetooth music, LED Lighting and water features. The variable LED lighting creates a subtly peaceful ambiance and will ensure your spa is as calming, relaxing, and aesthetically pleasing as possible.

#### New for 2022

The Joys hot tub is new for the Intro range and seats up to 7 people. It is the first all seater model in this range due to popular demand.

This is very popular with friends and families who are looking for a hot tub for entertaining and socialising.

## Space Range

### Latest hot tub experience

**The Space range offers sculptured line design and ergonomic seating that is designed to relax and unwind you.**

With a variety of seating moulds to fully support all customers and their needs whether it is for relaxing or entertaining. Choose from four different models, all with a highly efficient and energy saving heating system, a 10mm thick strong cover and the Thermo Lock System, owners can enjoy the perfect water temperature. All year round, even in cold wintery conditions.

Each one contains carefully positioned water jets so you can experience the best directional water placement to reduce stress and soothe tired muscles.

The additional Bluetooth music system and LED lighting is there to entertain you in luxury. The variable LED lighting creates a subtly peaceful ambiance and will ensure your spa is as calming, relaxing, and aesthetically pleasing as possible.

### New for 2022

The Mars hot tub is new for the Space range and seats up to 7 people. It is the first all seater model in this range due to popular demand.

This is very popular with friends and families who are looking for a hot tub for entertaining and socialising.

## Gemstone Range

### Perfectly packaged hot tubs

**The Gemstone range, is the backbone of the Thermals Spas range, with five modern and stylish models to choose from.**

The Gemstone range offers great design layouts with an array of different sizes to accommodate most family requirements. The Gemstone range has new and innovative features compared to other Thermals Spas products such as water fountains, redesigned filter cover and foot massage function.

The carefully positioned powerful water jets provide maximum relaxation and feature directional adjustment for optimum placement. The ergonomically moulded seating cradles the body in the most comfortable position while the heated water reduces stress by massaging key muscle points.

The range comes with Bluetooth music, LED Lighting and water features. The variable LED lighting creates a subtly peaceful ambiance and will ensure your spa is as calming, relaxing, and aesthetically pleasing as possible.

It is the perfect way to relax at the end of the day or enjoy with friends or family at the weekend.

## Swim Spa Range

### Aquatic exercise in your garden

**Thermals Spas swim spas are the ideal choice for anybody who wants more than a conventional hot tub.**

Our Leisure range swim spas, available in three sizes, have the benefits of modern hot tubs with the unique advantages of an endless swimming pool. Full foam installation surrounding the shell - combined with the custom fit shell covers - forms an effective insulation barrier keeping the heat in and the cold out. They are ideal for anyone who wants to relax, enjoy a healthy lifestyle, and stay fit.

The range offers everything a family could need from a compact exercise swim spa, a large aquatic fitness area through to the ultimate dual temperature spa with hot tub end and exercise end.
